

The Oregon Republican.  
COUNTY OFFICIAL PAPER.  
DALLAS, SATURDAY, DEC. 8.

THE SHOOTING OF HYLTON.  
Extraordinary Revelation of Shortlight  
edness.

William G. Lansing was called for trial yesterday, at the Municipal Criminal Court, on an indictment charging him with an attempt to murder Theodore D. Hylton. W. H. L. Barnes, who volunteered as Lansing's counsel when he was first arrested, appeared for him yesterday, and District Attorney Byrne appeared for the prosecution.

Hylton testified that on the 30th of May last, he was walking along Montgomery street, between Clay and Commercial, near J. G. Steele's drug store when he heard the report of a pistol, felt a stinging sensation on the left cheek and a tearing sensation under the right eye. He staggered but did not fall, and was supported into the drug store by two men, and after his wound had been dressed, he was taken home. Did not see who fired at him, and only Lansing once before at his office in reference to some article that had been published about a prostitute in Virginia City. Hylton further testified that he was the proprietor, publisher, and editor of *Our Maseppa*, and had correspondents in this State and Nevada, furnished him with general news.

Detective Johnson testified that he heard of Hylton being shot. Saw no shooting. Saw Mr. Lansing on Montgomery street after the shooting. Lansing said he had a pistol. He pulled two deringers out of his pocket, one loaded and the other discharged. He said he did not care to talk about the matter, and did not admit that he had done the shooting.

An old French flower vendor was next introduced by the prosecution. He stated that he was on 21st street when the shooting transpired, and consequently knew nothing of the matter. Mr. Byrne said he had been unable to find any witnesses, and that was all he could offer.

Judge Lake said it was a surprising matter that a man could be shot down on Montgomery street at an hour when it was crowded, and not a witness be found who could testify to the shooting, and who could come forward spontaneously and give his testimony.

Mr. Barnes said he could make that clear. At least from 50 to 75 persons saw the shooting, but when they learned who had been shot, they turned away and forgot that they had seen it.

Judge Lake said it was an extraordinary case, and as it had been presented he could not do otherwise than to instruct the jury to render a verdict of acquittal, which they accordingly did. —Chronicle.

At the request of the writer, we publish the following communication.

DALLAS, OREGON,  
Nov. 28th, 1870.

EDITOR OREGON REPUBLICAN.

Dear Sir:—In your issue of the 26th ult., I see what purports to be a report of a Sanitary Meeting of the Citizens of Dallas. In that part of the "garbled string" that alludes to myself, I desire to report correctly what transpired, and the connection in which it did transpire. The meeting was discussing the propriety of indefinitely suspending all business in our midst, giving as a reason for so doing, that it would take from our neighbors one great inducement that would bring them to our village; and one speaker went so far as to say, the U. S. mail should be "stopped," for fear the small pox would be introduced through the mail matter. In this connection, I suggested to the Chairman, would it not be better, and more effectual, if the object were to prevent all persons from coming amongst us, to report as true, the existence of ten cases of small pox in our town.

"It is worthy of note," Mr. Editor, that the Meeting, "together with the Secretary's Report," was a "practical joke" perpetrated upon the outsiders by some of our waggish citizens.

Yours truly,  
DR. STILES

The \$12 Lever Watch, No. 13,580, purchased from Chas. P. Norton & Co. 8; Nassau-Street, New York, January 5th, has been carried by me over six months, with a total variation in time of only 26 seconds, without the slightest regulating, and presents the same brilliancy of color as when purchased.

I have for the past eight months, constantly used one of the \$15 Norton, Oride Gold Lever Watches, manufactured by Chas. P. Norton & Co. 86 Nassau-Street, New York, and found the total variation in its time but one-half minute, (30 seconds,) and it retains the same appearance of gold as when purchased. Several of our men use them with the same results. I cheerfully recommend them for correctness and wear.

THE TURF.  
Racing at Agricultural Park.

The trot on Saturday last called out a much larger crowd than we have seen on the track for a long time. The weather up to noon was hazy and foggy, but the afternoon turned out pleasant. The trot was for horses that had never beaten 2:39, in harness, for a purse of \$300, to go mile heats, best three in five. The winner to get \$200, and the second horse \$100. The fact that the majority of the contestants had beaten 2:39 since the entries were closed, brought a good many persons to see how much these figures would be reduced, but our prediction that 2:39 would win is corroborated by the time record.

The Judges were Vice-President H. R. Covey, assisted by Messrs C. S. Crittenden, and Ex-President Captain E. J. Weeks; Distance Judge, I. N. Killip. Timers, Messrs. Lou. Hamilton and—White.

FIRST HEAT.

The heat was trotted in a dense fog: at the three-quarter pole could be seen Belle, Ajax, and Penuts side by side—the other two headed in the race; the three named swung into the home stretch together. It was now a "life and death" heat, and brought out all that could be done in the way of expert driving. Belle crossed the score first. Ajax at her wheel, and Penuts half a length behind him, the other two a bad fourth and fifth. Time, 2:39 1/4.

SECOND HEAT.

Belle broke at the quarter pole, and Penuts shot by and opened a gap of two lengths on her. Russell also out trotted the mare and went up to Penuts, but could not get past his wheel; and the heat was finished in that position, Penuts winning the heat, Russell second, Belle third, Braelett fourth, and Ajax fifth. Time, 2:39 1/4.

THIRD HEAT.

This was a repetition of the last heat with the exception of Belle and Ajax changing places. Time, 2:28 1/4.

FOURTH HEAT.

This was the best contested mile trotted in the race. Little Ajax swung to his friend Penuts, and would sometimes go up to him, but as often he would get the cold shoulder at the distance stand. Penuts made extraordinary exertion and crossed the score the winner of the heat, race and first money. Time, 2:39 1/4.

SUMMARY.

AGRICULTURAL PARK, Nov. 12.—Purse \$300, mile heat, 3 in 5, in harness, for horses that never beat 2:30. First horse to get \$200 second horse \$100.

Mr. Eoff's Penuts..... 3 1 1 1  
Mr. Farrell's Baltimore Belle..... 1 3 3 3  
Mr. McLellan's Ajax..... 4 2 2 4  
Mr. Rargson's Billy Russell..... 4 2 2 4  
Mr. Lucas's Braelett..... 4 2 2 4  
Time: 2:39 1/4, 2:39 1/4, 2:28 1/4, 2:39 1/4.

There was quite a large crowd at the Park on the 17th inst. to see the two trots, in which owners were to drive in both instances. The first was a trot of three miles out, in harness, for \$50 a side; this was won, without a struggle, by Mr. Swain's b. c. Fisher beating Mr. Kehoe's ch. f. Dolly. Time, 10:35. The second race was mile heats, best 3 in 5, for a sweepstakes of \$300; this was won after a hard contest, by Cronk, he taking the first, third and fourth heats, in 3:11, 3:04, 3:06. Hiram won the second heat, in 3:04. —Spirit of the Times.

Probable Success of the Schemes of Russia.

LONDON, Nov. 20.—The World correspondent has interviewed a member of the British Government, who said: "It is now certain that no combination of Powers will be formed against Russia. Five Governments besides Russia signed the treaty of 1856, and all are equally aggrieved at Russia's violation thereof, but will not even unite in a collective note of remonstrance. France is powerless. Prussia conspires with Russia. Italy declares she will not join any diplomatic movement against Russia having gained the object of her former alliance with France and England. There remains Austria. She will address a note to Russia, but not to threaten war. In 1867 Count Beust himself proposed the abolition of the provision of the treaty restricting the sovereignty in the Black Sea. He is now quite willing, even anxious, to make a still higher bid for the friendship of Russia. England will be left alone, should she insist on refusing to join a Congress for the decision of Russia's claim. She will not insist. The Congress will meet, and Russia will gain her point. Granville's letter does not mean war. England has no wish for the struggle herself. Turkey is on one side; Russia, Prussia and the United States are on the other. The remaining Powers are mere spectators. Bismarck has a secret treaty with Russia."

Pure Air in Churches.

Architects, building committees, trustees and sextons ought to have some one to remind them perpetually, that fresh air is a vital necessity in churches. Better do without almost anything else. A living gospel ought never to be preached in a dead atmosphere. Give us plenty of fresh air, and the preachers will preach better, the brethren will pray better, the people will sing better, and all our meetings will be better attended, and followed by better consequences. Give each one of us forty cubic inches of fresh air for every inspiration, and for every minute of the service the eighteen pints to which we are each justly entitled, according to the doctors, and we shall complain less of languor, headaches, poor preaching, and dull meetings; and be in less danger of backsliding; for we devoutly believe that fresh air is a means of grace.—Methodist.

The above corresponds so well with our own feelings in regard to the subject treated, that we feel bound to give it to the public here, and think the rule ought to be strictly applied to the churches in Dallas, for it is a truth that some have already become sick from a bad cold caught in that way.

The Five Dollar Sewing Machine purchased by me, January, 1866, from the Family Sewing Machine Company, Nassau-Street, N. Y., has been in almost constant use ever since. It has not been out of order once. Has cost nothing for repairs, and I find it simple and reliable in operation, and always ready to sew. Those friends of mine who use them with the new improvements are very much pleased. The one I have I would not part with.

ADDRESS

—TO THE—

Nervous and Debilitated

WHOSE SUFFERINGS

HAVE BEEN

Protracted from Hidden Causes,

AND WHOSE CASES REQUIRE

PROMPT TREATMENT

to render Existence Desirable.

If you are suffering or have suffered, from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys frequently get out of order? Is your urine sometimes thick, milky or sticky, or is itropy on settling? Or does a thick sediment rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspnea? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Are your spirits dull and flagging, given to fits of melancholy? Do you feel as much confidence in yourself? If so do not lay it to your liver or dyspepsia. Have you restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia, or liver complaint?

NOW, READER,

self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health,

MAKE THE MAN.

Did You Ever Think

that those bold, defiant, energetic, persevering successful business men, are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, or palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you at all right in the face—none of your downcast looks or other meanness about them. I do not mean those who keep the organs inflamed by running to excess. These will not only

RUIN THEIR CONSTITUTIONS,

but also those they do business with or for.

How many men, from badly cured diseases, from the effects of self-abuse and excesses, have brought about this state of weakness in those organs that has reduced the general system so much as to induce almost every other disease—

IDIOTCY,  
LUNACY,  
PARALYSIS,

spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely there suspected, and have doctored for but the right one.

Diseases of these organs require the use of a Diuretic.

Helmbold's  
Fluid Extract  
BUCHU

is the great Diuretic, and is a certain cure for disease of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, and which have whatever cause originating, and no matter of how long standing. If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depends upon prompt use of a reliable remedy.

DR. PIERCE'S  
ALT. EXT.  
GOLDEN MEDICAL  
DISCOVERY

This is the most thorough blood purifier yet discovered, and cures all humors from the worst Scrofula to a common Eruption. Pimples and blotches on the face, and scaly or rough skin, which are such annoying blemishes to many young persons, yield to the use of a few bottles of this wonderful medicine. From one to eight bottle-cure Salt Rheum, Erysipelas, Scald head, Ring Worms, Boils, Scaly Eruptions of the Skin, Scrofula Sores, Ulcers, and "Canker" in the Mouth and Stomach. It is a pure medicinal extract of native roots and plants, combining in harmony Nature's most sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick. It is a great restorer for the strength and vigor of the system. Those who are languid, sleepless, have nervous apprehensions or fears, or any of the affections symptomatic of weakness, will find convincing evidence of its restorative power upon trial. If you feel dull, drowsy, debilitated and despondent, have frequent Headache, mouth tastes badly in the morning, irregular appetite and tongue coated, you are suffering from Torpid Liver or "Biliousness." In many cases of "Liver Complaint" only a part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal as it effects perfect cures, leaving the liver strengthened and healthy. For the cure of Habitual Constipation of the Bowels it is a never failing remedy, and those who have used it for this purpose are loud in its praise. In Bronchial Lung disease it has produced many truly remarkable cures, where other medicine had failed. Sold by druggists at 1.00 per Bottle. Prepared at the Chemical Laboratory of Dr. J. C. Dr. Julien Perrault,

Dr. of Medicine of the Faculty of Paris, Graduate of the University of Queen's College, and Physician of the St. John Baptist Society of San Francisco.

DR. PERRAULT HAS THE PLEASURE to inform patients and others seeking confidential medical advice that he can be consulted daily at his office, Armory Hall Building, North East corner of Montgomery and Sacramento streets, San Francisco, Rooms Nos. 8, 10, 11, first floor, up stairs, entrance on either Montgomery or Sacramento streets. Dr. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the result of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists, involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that a premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruits tasted long afterward, and, laboring under this complaint, will complain of one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on getting up, or in person or by letter, as he will guarantee a cure of Seminal Emissions and Impotence in six or eight weeks.

Patients suffering from venereal diseases in any stage, Gonorrhoea, Gleet, Stricture, Bub, Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

Dr. PERRAULT'S diploma are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.
